SOFT TISSUE RETRACTORS

DIVARICATORI PER TESSUTI MOLLI

The tip pointed down allows more control of the grip, meanwhile it leaves you a better view for the operation. The convex and grooved shape of the blade provides a better support on the lip and makes the grip less traumatic.

La punta rivolta verso il basso permette un maggior controllo della tenuta, e nel contempo lascia maggior visuale per l'intervento. La forma scanalata e convessa della lama, permette un migliore appoggio al labbro e rende meno traumatica la tenuta.

925/1 (mm 7x25)

925/4 (mm 12x55)

925/2 (mm 10x35)

Obwegeser internal

The tip pointed up makes the use of retractor less traumatic for soft tissue. The convex and grooved shape of the blade provides a better support on the lip and makes the grip less traumatic.

La punta rivolta verso l'alto rende l'utilizzo del divaricatore meno traumatico per i tessuti molli. La forma scanalata e convessa della lama, permette un miglior appoggio del labbro e rende meno traumatica la tenuta.
